Uniform Plumbing Code: A model code developed by the International Association of Plumbing and Mechanical Officials to govern the installation and inspection of plumbing systems as a means of promoting the public's health, safety and welfare.

WaterSense: 20 percent more water efficient than average products in that category. Provide measurable water savings results. Meets EPA criteria.

LOW LEAD: Manufacturer warrants the product to contain 0.25% or less of lead on wetted surfaces as complies with California code AB1953.

GreenLine: Items throughout the catalog denoted with this symbol are considered "Energy Efficient".

ADA: This product meets the qualifications for the American Disability Act.

When upgrading a bath, consider cultured marble as a cost effective solution.

Cultured marble is coated with a protective gel like coating that makes it completely waterproof, resistant to chipping and gives the final product a shiny appearance.
